### THE TRIBUNE.

The Tribuna appears this week reduces to a balf sheet and in that form will be published during the winter. The old form and style could not be maintained during the winter without a loss of a fifty dollars a week; an item which we cannot afford to lese.

We regard our sentere here as a fiunneral success though the receipts of the office have all been expended on the paper and she publishers bare fewer dollars thus when they commenced. They have built up a basiness, however, which will be warth something in the "future. In this connection we wish to correct an impression which has obtained that the Tarawas has been sup period by the failroad company. The company has not sided us to the extent and oleven dollars and twenty-five cents represents the patronage we have recoired turough the Puget Sound Company. The citizens of Bismarck and autsiders who desired the Taisuns have sustained our enterprise thus far.

The Trieung publishers are not disposed to whine or beg, and therefore when hard times came, affecting slike all business interests, they, like others, curtail expenses, expecting; of course, hawing from croakers but semmendation from sensible business men.

We expect to reach our eastern subby mail; town subscribers will bereafter receive their papers through the post-office.
